COSTAINING

A Statement of the Origin, Development, Doctrones and Government of the Religious Demonimations in Europe and the United States, with Biographical Stateless of Emine I Dictars. By Samuel M. Smacker, L. L. D. Patinished by Damae Rutison, Quaker City Peditation II use, 53 South This a Street, Philiamschier, Ph.

The ambiect of Religion and the Doctrines of Sects inter always have an absorbing interest for the thougatful observer, and a work which allows the desired information, in a convenient and necessable torm, at a moderate price, has been argently demanded and with be sought for with aviatry, and must comme deflect in a style clear, compendious and accurate, and will afford all their formation which night be proported with great difficulty and expense, and much labor and research, from the larger polemical works an encyclopedias.

Dr. Smucker has evidently prepared this work with much care, and it exminits geat ability and carring. The articles on the different religious are very impartially written, and show the careful study of an unpripulated and summ mind; and a camportance and value cannot be too highly estimated of such superior and wabiased cifort in a work of this kind, as too often, those pretenting to give correct information upon such subjects are prejudiced in favor of some particular seats or denominations. Mr. Rusison has brough out the work in a very handsome form, and the public is indebted to him for a very valuable, matrinerive and useful book. The price, \$100, is remarkably low for such a work, and in order that it may have a rapid and extensive circulation, he will send it to any address, accompanied with a valuable (lift, on the receipt of the price and reventy cents to prepay postage.

Mr. Rulis a mill send he con application, his new, enlarged and revised Catalague of relative to the establisment of genesies in the Gift Book business. Address.

Operatie.

NEW YORK, Sept. 29 .- Madam Gazzier created another sensation at the Academy, last night, by her vigorous personation of Elvira in Ernani. The house was full and the audience enthusiastic.

A remarkable and perilous undertaking was recently accomplished at Stoke Prior, in Worcestershire, England. The upper portion of a lightning conductor on the top of a chinney at some extensive chemical works had been raten away by the action of the chemical gases. It was necessary to renew it, and as the chinney is 312 feet high, considerable ingenuity was required to accomplish the task. It was finally renew it, and as the chimney is 312 feel high, considerable ingenuity was required to accomplish the task. It was finally done from the exterior by means of 22 ladders, each 21 feet in length. The lowladders, each 21 feet in length. The lower one was placed against the building and then the second spliced to it. The third was then raised and spliced to the second, and so on until the top of the chimney was finally reached. To ascend a chimney of the hardens is a foul never buffer. this height by ladders is a feat never before performed.

Twenty or twenty-five years ago old Phileg, up in Madison county, was telling his friend Jones, consarning of a fight. Phileg had a very little edication, but Jones was a man of right smart reading. So Phleg went on tellin', "and" says he, "they

Whis PARTAGLOUS TONIC especially designed for the use of the Menican Phorasinon and the Family, possesses those intrinsic medicinal properties (Tonic and Diaretie) which belong to an Old and FURE GIM. The business of manufacturing spurious gins, and offering them as beverages, under the titles, "Aramatic,"—" Cordial,"—" Medicated," etc., has become so common, that the publie are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute It has remained for our house (established in 1778) to supply the pressing popular need, and to inaugurate a new era in the history of the Trade. We trust that our established reputation — founded upon eighty years of experience -- abundantly vindicates our claim to public confidence.

A comparison of "Bininger's Old London Dock Che" with others bearing similar names, will establish the superiority, and make other Caurion unmerceasity.
